Senior Java Application Developer
City of Boulder
1101 Arapahoe Ave.
Boulder, CO 80302

To Whom It May Concern,

I am writing to apply for the Java Senior Software engineer position with the City of Boulder.

During the past 6 years with Qualstar Corporation, I acquired a broad skillset that makes me an ideal candidate for this position. I am involved with every aspect of web application development with Java. As the sole maintainer of a web application used in a piece of IT equipment, I am in charge of client-side development, server-side development, nightly builds and deployment of the application. Also, my doctorate degree in mathematics shows that I am capable of working independently and learning new concepts quickly.

Enclosed is my current resume. Also, I maintain a personal server as a hobby that has other information about me at:

<http://timmy.TransientRants.com>

Please let me know if there are any other materials or information that will assist you in processing my application.

Thank you for your time and consideration. I look forward to hearing from you.

Sincerely,

Timothy J. Schumacher, Ph.D.
